Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vosteen '358 in view of Sellakumar US 6,960,329.

Regarding claims 1 and 26, Vosteen '358 discloses combusting coal and releasing mercury in a coal fired plant (abstract, column 2), injecting a bromine compound into the furnace and/or flue gas to oxidize mercury (abstract and column 4), and adsorbing the oxidized mercury (abstract and column 5).

Vosteen fails to disclose ammonium chloride.

Sellakumar discloses ammonium chloride (column 8, lines 3-13).

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the ammonium chloride of Sellakumar in the mercury oxidation treatment

Art Unit: 1793

process of Vosteen because Sellakumar discloses the ammonium chloride in a method for removing mercury species from flue gas advantageously (title and column 2, lines 25-33).

Regarding claims 2 and 27, Sellakumar discloses ammonium chloride (column 8, lines 3-13).

Regarding claims 3-4, Vosteen discloses lignite (column 2, lines 32-42).

Regarding claim 5, Vosteen discloses lignite (column 2, lines 32-42).

Regarding claims 6-8, Vosteen discloses fly ash and multistage cleanup (abstract, column 4 lines 28-33).

Regarding claims 16-17, Vosteen discloses at least 800 degrees C.

Regarding claims 9-15, 18-25, and 28-33, Vosteen discloses fly ash and multistage cleanup (abstract, column 4 lines 28-33) ammonia and hydrogen and sodium bromide (Examples and column 4) and it would have been obvious to one of ordinary skill to choose a stoichiometric ratio of 1 or 0.8-1.16, NaOH, and/or urea, achieved by routine experimentation.

Response to Arguments

Applicant's arguments filed 11/21/07 have been fully considered but they are not persuasive.

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
